

HORNIT CLUG

Beautiful. Bike. Storage.

Pssst!
I'm here...

What is CLUG?

The Eurobike award winning CLUG is the world's smallest bike rack. It works with your floor to store your bike. You won't believe something so small works so well, but it does.

Available in three sizes, for every size of bike tyre (23mm to 62mm), the CLUG mounts in minutes using the screws and wall plugs provided to give you beautiful bike storage.

'CLUG' your bike... anywhere!

All you do is roll your bike up, and 'CLUG' it in. It's like a hug for your bike!
